unpub.--unpublished

WD--Wadi ed Daliyeh

### Preface

#### A. Acknowledgements for Financial Support

From March to July 1989 and from August 1990 to the present Dr. Reed has been working with the photographs at the Ancient Biblical Manuscript Center and from August 1989 through July 1990 Dr. Reed worked with the fragments and photographs at the Rockefeller Museum. A Dorot Fellowship made it possible for Dr. Reed to work on the project from March to July 1989 at the ABMC and spend a year in Jerusalem working on revising and updating these lists. The Ancient Biblical Manuscript Center has provided funding for work at the Center from August 1990 through June of 1991. Additional funding has been made available since July 1991 by grants from the Dorot Foundation, the Annenberg Institute and the National Endowment for the Humanities.

#### B. Purpose of this fascicle

Our goal is to produce a computerized database which will include information about photographs, documents and museum plates of the Dead Sea Scrolls. A computerized database will allow scholars to conduct different searches according to their particular research needs.

It is our intention to make the information in the lists available to scholars as quickly as possible. Since it will take some time before the computerized database will be complete, we have decided to compose preliminary lists of each of the particular collections (such as Cave 1, the Minor Caves, Murabba'at and 4Q128-4Q186) and make these lists available to interested people in photocopy form. We wish to emphasize that these lists are still preliminary. The final database will include more information.

Much care has been taken to ensure that the information in these lists is accurate, but inevitably errors enter such a work. We would be appreciative if you would contact us about errors you find or additional information about the photographs of Wadi ed Daliyeh at the Ancient Biblical Manuscript Center, Box 670, Claremont, CA 91711. (714) 621-6451. Fax number: 714-621-1481.

#### C. Assistance for Work

The production of these lists has involved the skills of many people. Over the years some preliminary and partial lists were produced by the original editors and by museum officials. The most comprehensive lists before I began my work were prepared by Elisha Qimron in 1981. Further updates were added in 1985 to these lists by Qimron and John Strugnell. All of these lists were made available to me by John Strugnell when I began updating the materials. I wish to acknowledge their contribution without which my work would have been far more difficult.

The Israel Antiquities Authority staff at the Rockefeller Museum helped me find appropriate fragmentary and photographic materials at the museum. Joe Zias, curator, gave me access to the materials. Ruth Peled, Marcia Sharabani and Donald Ariel also provided assistance. Ayala Sussmann and Ronny Reich allowed me access to the photographs. Magen Broshi aided us in finding particular plates that had been moved to the Shrine of the Book for storage or conservation. The members of the Advisory Committee, composed of Amir Drori, Ayala Sussmann, Jonas Greenfield, Magen Broshi and Shemaryahu Talmon, have provided editorial assistance in the overall preparation of these lists.

The staff of the Ancient Biblical Manuscript Center helped me obtain access to the materials, and provided administrative help, guidance and advice. James A. Sanders, president, has provided overall direction for the project. Former directors, Peter Pettit and Steve Delamarter, as well as the current acting director, Bruce Zuckerman, and Marilyn Lundberg, Associate Director, have provided much support.

Editors of the materials have provided a great deal of information. John Strugnell, international editor in chief while I was in Jerusalem, provided help in updating these lists and answering various questions that arose while working on them.

Randall Reed compiled the bibliographic data and provided word processing assistance.

Every item of the lists here has been checked and verified by us at the Ancient Biblical Manuscript Center or in Jerusalem at the Rockefeller Museum.

#### D. How to acquire materials

For further information about photographic collections contact:

1. Photographic Services, Israel Antiquities Authority, P.O.B. 586, Jerusalem 91004, Israel. Telephone: (02) 292614; Fax number: 292628.
2. Ancient Biblical Manuscript Center, 1325 N. College Ave., P.O. Box 670, Claremont, CA 91711. (714) 621-6451 Fax number: (714) 621-1481
3. West Semitic Research Project, Bruce Zuckerman, 12 Empty Saddle Rd, Rolling Hills Estates 90274. (310) 541-4573 Fax number: (310) 541-2361

## I. Introduction

This fascicle contains information about the Samaria papyri, bullae and coins found at Wadi ed Daliyeh. Information concerning these documents is arranged in three lists: documents (including bullae, coins and rings), photographs and museum plates. In the document list the documents are listed sequentially according to their designated numbers by the editors. Included in this list are the photographs which pertain to each document as well as the present location of the fragments. In the photograph list the photographs which pertain to these documents are given according to the inventory numbers assigned in the PAM photographic collection. The museum plate list includes a list of the museum plates which contain these materials.

Since published photographs are called "plates", it can be confusing to refer to the fragments placed between plates of glass in the museum as "plates." Emanuel Tov, international editor in chief for the publication of the scrolls, prefers that the expression "inventory number" be used for what is here called "museum plate."

The document list is cross-referenced to the other two lists. It is expected that scholars would first refer to this list and then if they want further information about the photographs or museum plates they can refer to the other two lists. There is some duplication of information in the three lists but there is often no one-to-one correspondence among documents, photographs and museum plates. All three are necessary to provide all of the information that scholars may need in their research.

Three museum plates were missing at the Rockefeller Museum: 764. WD C4 Coins, 782. WD GA Gold Ring A, 783. WD GB Gold Ring B. There were notes in the drawer that these rings had been checked out to the Israel Museum 24.3.80 but they could not be located. Ruth Pelet of the Rockefeller museum informed me that museum plates 766, 768-772, 774, 775, 972 were on display in the Israel Museum. Museum plate 554 with WDSP 1 as well as the seven bullae (museum plates 768-770, 772, 774) attached to it are on display in the paleographic exhibit in the Israel Museum.

Douglas Gropp made an inventory of the PAM photographs of the Samaria Papyri when he was doing research at the Ancient Biblical Manuscript Center and made this available to us. The dissertation on the WD bullae by Mary Joan Winn Leith was made available to me while I was in Israel by John Strugnell and Mary Joan Leith also provided me information. Frank Cross read through an earlier version of this fascicle and provided editorial assistance.

In a letter Dr. Mary Joan Winn Leith sent to me June 1, 1990 she indicated that museum plate 955 had 10 bullae associated with it and museum plate 956 had 22 bullae associated with it that she had asked to be numbered separately and photographed. She referred to these as 955.1, 955.2 etc. At present museum plate 956 has 57 bullae

numbered. There do not appear to be photographs of these bullae at the present time and they have not been published.

Two volumes are intended for the publication of the Samaria Papyri in the Discoveries in the Judean Desert series. Volume I will contain SP1-10 which will be edited by Frank Cross. The next volume will be edited by Douglas Groppe and will include the rest of the documents SP11ff. Another volume in the DJD series will be devoted to the publication of the bullae by Mary Joan Winn Leith.

Gropp indicates that "SP" = "Samaria Papyrus" and "SPF" = "Samaria Papyrus Fragment." Some 18 papyri are labeled "SP" while about another 9 fragments will be labeled with "SPF". Descriptive titles of the documents were derived from Gropp's dissertation (p. vii,4) and the title of SP 8 came from Frank Cross.

For general information on photographs and museum plates see Stephen A. Reed, "Survey of the Dead Sea Scrolls Fragments and Photographs at the Rockefeller," BA 54 (March 1991) 44-51.

B. IAA Photographs

It appears often in the following series that these were rephotos of other PAM photos which cannot be presently located. In most cases there appear to be two different exposures of the same plate. In the IAA series these pairs are only given one number whereas in the PAM series they were given two. In the PAM series there is one solitary photo 44.361 which suggests that there might have once been more photos. The photograph numbers such as 44.405, 44.404 for 127326 are on the photos themselves.

127326.	WDSP 7	44.405, 44.404
