Preface

A. Acknowledgements for Financial Support

From March to July 1989 and from August 1990 to the present Dr. Reed has been working with the photographs at the Ancient Biblical Manuscript Center and from August 1989 through July 1990 Dr. Reed worked with the fragments and photographs at the Rockefeller Museum. A Dorot Fellowship made it possible for Dr. Reed to work on the project from March to July 1989 at the ABMC and spend a year in Jerusalem working on revising and updating these lists. The Ancient Biblical Manuscript Center has provided funding for work at the Center from August 1990 through June of 1991. Additional funding has been made available since July 1991 by grants from the Dorot Foundation, the Annenberg Institute, and the National Endowment for the Humanities.

B. Purpose of this fascicle

Our goal is to produce a computerized database which will include information about photographs, documents and museum plates of the Dead Sea Scrolls. A computerized database will allow scholars to conduct different searches according to their particular research needs.

It is our intention to make the information in the lists available to scholars as quickly as possible. Since it will take some time before the computerized database will be complete, we have decided to compose preliminary lists of each of the particular collections (such as Cave 1, the Minor Caves, Murabba'at and 4Q128-4Q186) and make these lists available to interested people in photocopy form. We wish to emphasize that these lists are still preliminary. The final database will include more information.

Much care has been taken to ensure that the information in these lists is accurate, but inevitably errors enter such a work. We would appreciate receiving corrections or additional information about the photographs of Nahal Hever/Seiyal at the Ancient Biblical Manuscript Center, Box 670, Claremont, CA 91711. (714) 621-6451. Fax number: 714-621-1481.

C. Assistance for Work

The production of these lists has involved the skills of many people. Over the years some preliminary and partial lists were produced by the original editors and by museum officials. The most comprehensive lists before Reed began his work were prepared by Elisha Qimron in 1981. Further updates were added in 1985 to these lists by Qimron and John Strugnell. All of these lists were made available to Reed by John Strugnell when he began updating the materials. We wish to acknowledge their contribution without which our work would have been far more difficult.

The Israel Antiquities Authority staff at the Rockefeller Museum helped Reed find appropriate fragmentary and photographic materials at the museum. Joe Zias, curator, gave Reed access to the materials. Ruth Peled, Marcia Sharabani and Donald Ariel also provided assistance. Ayala Sussmann and Ronny Reich allowed Reed access to the photographs. Magen Broshi aided us in finding particular plates that had been moved to the Shrine of the Book for storage or conservation. The members of the Advisory Committee, composed of Amir Drori, Ayala Sussmann, Jonas Greenfield, Magen Broshi and Shemaryahu Talmon, have provided editorial assistance in the overall preparation of these lists.

Most of the photographs of the Nahal Hever materials are found at the Shrine of the Book in Jerusalem. Magen Broshi, curator at the Shrine of the Book, gave permission to the Ancient Biblical Manuscript Center and the West Semitic Research Project to make copies of these photographs. In January 1992 Bruce and Kenneth Zuckerman copied the photographs and Stephen Reed made an inventory of them. Broshi made available lists of these materials.

The staff of the Ancient Biblical Manuscript Center helped Reed obtain access to the materials, and provided administrative help, guidance and advice. James A. Sanders, president, has provided overall direction for the project. Former directors, Peter Pettit and Steve Delamarter, as well as the current acting director, Bruce Zuckerman, and Marilyn Lundberg, associate director, have provided much support.

Editors of the materials have provided a great deal of information. John Strugnell, international editor in chief while Reed was in Jerusalem, provided help in updating these lists and answering various questions that arose while working on them. Emile Puech provided a list of the Nabatean materials and coins Starcky was originally assigned. Ada Yardeni helped Reed identify the publication numbers of many of the Nahal Hever documents. Randall Reed compiled the bibliographic data and provided word processing assistance.

Every item of the lists here has been checked and verified by staff at the Ancient Biblical Manuscript Center or in Jerusalem at the Rockefeller Museum and the Shrine of the Book.

The Ancient Biblical Manuscript Center is an official depository of the Seiyal photographs of the "PAM" collection and the Nahal Hever photographs of the Shrine collection. Scholars are welcome to come to the Center and view photographs of these documents here. A number of the PAM photographs inventoried in this fascicle can be found in A Facsimile Edition of the Dead Sea Scrolls: Prepared with an Introduction and Index by Robert H. Eisenman and James M. Robinson. Washington, D.C.: Biblical Archaeology Society, 1991. A microfilm of the complete PAM collection as well as photographs from other collections prepared by Robert Schlosser of the Huntington Library is also available.

I. Introduction

This fascicle contains information about collections from Wadi Seiyal and Nahal Hever, as well as other miscellaneous small collections at the Rockefeller Museum and the Shrine of the Book. Information concerning these documents is arranged in three lists: documents, photographs and museum plates. In the document list the documents are listed sequentially according to the numbers designated by the editors. Included in this list are the photographs which pertain to each document as well as the present location of the fragments. In the photograph list the photographs which pertain to these documents are given according to the inventory numbers assigned in the photographic collections. The museum plate list includes a list of the museum plates which contain these materials.

Since published photographs are called "plates", it can be confusing to refer to the fragments placed between plates of glass in the museum as "plates." Editor Emanuel Tov, prefers that the term "inventory number" be used for what is here called "museum plate."

The document list is cross-referenced to the other two lists. It is expected that scholars would first refer to this list and then if they want further information about the photographs or museum plates they can refer to the other two lists. There is some duplication of information in the three lists but there is often no one-to-one correspondence among documents, photographs and museum plates. All three are necessary to provide all of the information that scholars may need in their research.

For a brief review of the material see Milik, "Le Travail des manuscrits du Desert de Juda," VTSup (Leiden: Brill, 1957) 4:17-26. For general information on photographs and museum plates see Stephen A. Reed, "Survey of the Dead

"Sea Scrolls Fragments and Photographs at the Rockefeller,"
BA 54 (March 1991) 44-51.

Cataloguing the materials from Nahal Hever and Wadi Seiyal is difficult because some materials were bought from the Bedouin deposited in the Palestine Archeological Museum (now Rockefeller Museum) and some materials were found by Israeli scholars under the direction of Yigael Yadin (see the preface by John Strugnell in E. Tov, DJD 8, p. vii). For instance, fragments of the Minor Prophets Scroll found by Yadin were later associated with materials bought by the Bedouin. Fragments of a Nabatean document found by Expedition D and fragments published by J. Starcky in 1954 appear to belong to the same document and are to be edited as PYadin 36 in the JDS (p. 3). On the other hand Puech seems to be editing the same document in the DJD series. Strugnell's preface indicates that the separate teams of scholars publishing the materials at the Shrine of the Book and the Rockefeller Museum are working together but it is not quite clear how all of the material will be divided. For instance the fragment of Psalms 15:1-16:1 published by Yadin in IEJ 11 (1961), plate 20 and p. 40 may belong to the Seiyal document of the Psalms. Some of the documents known broadly from Seiyal will be able to be reassigned more precisely to their cave of origin. In this fascicle the materials from the Rockefeller Museum will be designated as part of the Seiyal collection whereas the excavated materials will be designated as belonging to the Nahal Hever collection. It should be noted, however, that Jonas Greenfield contends that most of this material was originally from Nahal Hever and not Seiyal.

The IAA series of photographs evidently was begun in 1948 in West Jerusalem. This is why some photographs in this series are now at the Shrine of the Book. The PAM series of photographs originated at the Palestinian Archeological Museum (now the Rockefeller Museum) and contains photographs of materials bought from the Bedouin. The Shrine of the Book series contains photographs of the Nahal Hever material which was excavated by Yigael Yadin.

When Milik labeled the museum plates of the Seiyal collection two different systems were used. Roman numerals were used to designate distinct museum plates and Arabic numerals were used to indicate distinct documents found on the museum plates. Thus museum plate 888 is marked Se II (4), museum plate 890 is marked Se III (4) and museum plate 891 is marked Se IV (4). Although there are three museum plates here, each museum plate contains parts of document 4 which contains Psalms. When one compares the numbers on the photographs with the numbers on the museum plates it appears that the documents have been renumbered and rearranged. It is not easy to figure out the logic of the arrangement. Jonas Greenfield went through the photographs and museum plates with Reed but not all details were worked out.

Ada Yardeni told Reed that some fragments had been rearranged on the museum plates at the Rockefeller Museum so

that the latest photographs do not correspond to the museum plates in all cases. Museum plate 651 was moved to the Shrine of the Book. Two fragments were moved from 533, ten fragments were moved from 733 to 542. Seven fragments were moved from 752.

Jonas Greenfield went through selected photographs of Nahal Hever material which Reed sent him and he provided corrections for the lists. The two Greek letters from Nahal Hever have not yet been assigned PYadin numbers but will probably be published with the Semitic material.

Much of the information in this fascicle is quite preliminary, particularly for the unpublished material. Changes in titles may well take place as further work of editing continues. Users should remember that this fascicle is preliminary and that changes will no doubt need to be made for some time in these lists.

The bibliographic references listed under the document list are not exhaustive. For the Nahal Hever letters one should consult not only Kutscher Leshonénu but also Fitzmyer and Harrington, A Manual of Palestinian Aramaic Texts, and Beyer, Die aramäischen Texte vom Toten Meer.
